

**AURAL TRAINING CLASSES
THURSDAYS 5.30-6.30pm**

Most of us are not born with particularly reliable or advanced aural skills, and often, our instrumental technique is far ahead of our basic training in listening. We can also feel especially nervous about sight-singing tests and talking about music.

The new Aural Training Class has been designed to help develop important, practical and useful aural skills to enhance your musicianship.

The class will help you improve in the following:

- Melodic and rhythmic memory
- Sight singing (solo and polyphonic)
- Chord recognition (tonality, type and inversions)
- Cadences (all types)
- Recognising chord progressions
- Recognising modulations
- Developing relative pitch
- Identifying and discussing key elements of a piece of music (viva voce)

The class will meet the needs of students from intermediate to advanced level including Grade 8 and Diploma requirements. The termly fee is £62.
