## Why Theory?

Theory is the backbone of everything we do as musicians. Having a strong understanding of music theory can benefit you in a range of areas, from composing to sight-reading to improvisation.

Your grade 5 theory is a requirement for ABRSM grades 6 and upwards, as well as being a great achievement as a musician!

In our theory classes students work in small groups of similar standards with an experienced tutor to ensure that everyone gets the most out of the experience.

Gain knowledge, make friends, and become a better musician!
